

Announces:

BEAT

Composed and Conducted by **ERNEST TROOST**
Intrada MAF 7090

Beat, a new feature starring Courtney Love and Keifer Sutherland, creates a time and place of the sixties, of the "beatnik" generation. And it portrays a story of love.

Complimenting the drama is a smoky orchestral score, utilizing small groups of instruments to fashion intimate colors. Rounding out the underscore are several great original jazz pieces.

Ernest Troost has garnered acclaim for his Emmy-winning music to *The Canterville Ghost* and for his score for the popular horror flick *Tremors*. Other credits include music for HBO's *A Lesson Before Dying* and MGM's historical drama *One Man's Hero* starring Tom Berenger.
