

Announces:

YANKEE SAILS ACROSS EUROPE/ GRIZZLY

Composed and Conducted by **ELMER BERNSTEIN & JEROME MOROSS**

Intrada Special Collection Volume ISC 12

Intrada is proud to announce the premiere release of two scores by two legends of Hollywood composed for National Geographic specials in 1967. The first featured score is Elmer Bernstein's *Yankee Sails Across Europe*, chronicling the voyage of veteran sailors Irving and Electa Johnson. Aboard their 50-foot ketch *Yankee*, they sail the waterways of France, Germany, the Netherlands, Denmark, and Belgium. The score is Bernstein at his most melodic, even incorporating some of the large-scale sweep of features he scored around the same time, such as *Hawaii* and *Return of the Seven*.

The second featured score is Jerome Moross' *Grizzly*. This special profiles twin ecologists Frank and John Craighead and their mission to learn more about the habits and lifestyles of the North American Grizzly bear. The music, Moross' only score for National Geographic, has the feel of his landmark score *The Big Country*, yet still manages to capture the vivacity and inquisitiveness of the twin naturalists and their subjects.

Naturally, this album would not be complete without featuring Bernstein's famous theme. Heard here in its original form, the theme was conceived clearly as a fanfare for brass and percussion, delivering spare, distinctive harmonies and energetic rhythms.

Intrada Special Collection Volume ISC 12
Released November, 2003
