### **HEART LIKE A WHEEL**

Composed and Conducted by **LAURENCE ROSENTHAL**  
Intrada Special Collection Volume ISC 24

The 1983 20th Century-Fox film HEART LIKE A WHEEL traces famed race car driver Shirly Muldowney (Bonnie Bedelia) through her entry into racing as an amateur and eventually as a major contender in the NHRA circuit. Muldowney's greatest achievement, however, and the focus of the film is her triumph over the sexism and prejudice against women participating in the male-dominated racing scene.

A zesty score by Laurence Rosenthal gives Muldowney winning musical support, providing stylish music ranging from a swinging jazz-from-the-forties title theme to sumptuous romantic music for full orchestra. In between, Rosenthal makes pit-stops with vivid musical displays of tragic accidents and behind-the-scenes drama.
