### **ISLANDS IN THE STREAM**

Composed and Conducted by **JERRY GOLDSMITH**

Intrada Excalibur Collection MAF 7095

Intrada presents a newly packaged re-issue of Jerry Goldsmith's landmark score. Franklin Schaffner's 1977 film from Ernest Hemingway's story elicited one of George C. Scott's most profound performances, aided immeasurably by Goldsmith's warm theme for solo French horn and orchestra. Another exciting highlight is the complete 12-minute "Marlin" fishing sequence. Jerry Goldsmith himself conducts this 1986 recreation of his "own personal favorite" score with the Hungarian State Symphony Orchestra. Intrada proudly places this title in its Excalibur Collection, along with *Ivanhoe*, *Julius Caesar*, and *Jason and the Argonauts*.
