For the 2013 sequel to Marvel's *Thor*, director Alan Taylor chose Brian Tyler to take the helm of the franchise and provide *Thor - The Dark World* with an orchestral powerhouse that rival's Thor's own strength. Anchored by a strong, muscular main theme for Thor, the score returns to the theme throughout its on-screen journey, particularly in the plentiful action music. *Thor - The Dark World* may just be the most exciting score written for a film this year. Intrada and Disney are proud to present this compact disc edition of this score, produced by Brian Tyler.

Thor: The Dark World continues the adventures of Thor as he battles to save Earth and all the Nine Realms from a shadowy enemy that predates the universe itself. In the aftermath of *Thor* and *The Avengers*, Thor fights to restore order across the cosmos, but an ancient race led by the vengeful Malekith returns to plunge the universe back into darkness. Faced with an enemy that even Odin and Asgard cannot withstand, Thor must embark on his most perilous and personal journey yet, one that will reunite him with Jane Foster and force him to sacrifice everything to save us all.
